
JUMVI Mission Book

36 missions · V2 print edition

Printable play instructions for grown-ups. Read each mission's setup, steps, goal and safety guidance together.

The JUMVI paddle has no handle. Your hand fits under the strap on the back. Sticky catches happen on the blue front; remove the ball with your free hand. Follow each mission's hand and turn sequence.

Creating a player or saving progress is optional. The app does not measure physical catches or skill.

This book uses the approved V2 mission rules. Older references to handles, weight-bearing crab walks or different player/ball sequences do not apply.
